

KIMBERLY-CLARK* PFR95* N95 Particulate Filter Respirators

Your Kimberly-Clark sales representative can help you develop a complete Respiratory Protection Program, including:

- Qualitative Fit Testing Training
- Respirator User Training
- Written Respiratory Protection Program Guidance
- "Preventing Airborne Infections" Educational Program

Ask your sales representative for more information.

Respiratory Threats in the Healthcare Environment

The risk of infection with tuberculosis and other airborne diseases, such as SARS, smallpox, measles or influenza, is an ongoing threat to healthcare workers. The healthcare environment contains many potential respiratory hazards in the form of infectious agents from patients who release droplet nuclei into the air via coughing or other respiratory functions. In addition, there is danger of infection from surgical procedures where these agents may be aerosolized.

Respiratory Protection is Key

Along with proper ventilation, good work practices and administrative controls, respiratory protection is key to the prevention of healthcare-associated transmission of airborne infectious diseases. Any employee who is required to work with or around patients with suspected tuberculosis or other airborne infectious diseases must be provided with a respirator recommended by the Centers for Disease Control (CDC) and the National Institute for Occupational Safety and Health (NIOSH).

NIOSH Approved N95 Respirators

KIMBERLY-CLARK* PFR95* N95 Particulate Filter Respirators and Surgical Masks are designed to provide an effective facial fit, as required for proper respiratory protection against airborne pathogens. The respirators are NIOSH approved and are available in a variety of sizes and styles to meet your needs.

KIMBERLY-CLARK* PFR95* N95 Particulate Filter Respirators are just one of the clinical solutions that you can depend on to meet the demands of your fast-paced world.

Whether your needs involve preventing healthcare-associated infections, surgical and digestive solutions or pain management, with Kimberly-Clark you'll always have one less worry.
